Solar Batteries

13kW Battery

19.5kW Battery

26kW Battery

39kW Battery

Built for medium to larger homes with a heightened energy demand, the 19.5 kW battery strikes a balance between capacity and compactness. This unit ensures you have more extended periods of backup power during outages, making it a favorite for households with consistent energy needs. The 19.5 kW option can efficiently manage peak demands, helping you navigate those high-consumption days seamlessly.

Experience Solar Savings, Just for You

Use this solar panel calculator to quickly estimate your solar potential and savings by address. Estimates are based on your roof, electricity bill, and actual offers in your area.
